[HF case study Milestones and work load abg.xlsx](#)

Gary, I've added a first cut, but certainly will need refining. It includes the plan for LRPCD to lead the 2 prospective case studies (no schedule for month/year yet, since it is all TBD), but at least puts some ideas on the table about leads and supporting staff. I also included Lauren Drees, Holly Ferguson, and Lee Rhea with respect to QA and data management for NRMRL IO, etc.

As you mentioned before, it does not include recent changes that we will also need to update for GWERD. Can you update that accordingly and suggest next steps?

Thanks, Alice

Hello Gary,

Attached is the revised workload analysis for HF with Pavilion.
